## Landscape Designer

**Sargent's Nursery is a well-established Red Wing, MN business that offers a full-service Garden Center, high-end residential Landscape Design and Installation, as well as Professional Garden Care.** Since 1928, Sargent's Nursery's Landscape designers and installation crews have been crafting a reputation as the place to turn in the Red Wing area for beautiful and function landscape designs, quality installation, horticultural knowledge, and friendly client services.

**Sargent's Nursery-Landscape designs and installs residential and commercial projects including hardscaped retaining walls, paver and natural stone patios/walkways, as well as focusing on our passion—PLANTS!** We design functional and beautiful horticultural solutions to serve our client's diverse needs.

**Sargent's is seeking an experienced landscape designer to join our team.** Landscape designers will meet with clients to assess their needs, share ideas and inspiration, create drafted designs and detailed estimates, communicate their visions to clients, and sell the installation services for their designs. Red Wing is an area made up of beautiful bluffs and valleys, making it a gorgeous place to work and an interesting place to design for.

Must be willing and able to travel to client's homes, which are commonly within 30-60 miles of our Red Wing offices and are often situated along the Mississippi River; including Lake City MN and Maiden Rock, WI. No metro driving required!

**We will provide some on-the-job training, but base knowledge of design and horticulture is crucial.**

**Skills Required:** Must have a passion for landscaping, ability to draft scale drawings using software or by hand, ability to create detailed estimates, have good communication & organizational skills. Must understand excellent customer service, ability to meet project deadlines, have great sales skills. Must have valid driver's license.

**Education and Experience:** Associate or bachelor's degree in landscape design or extensive horticulture knowledge and experience. Ability to identify common landscape trees, shrubs, and perennials. Experience with computer software including Microsoft Office applications. Strong salesmanship with the ability to close a deal. Basic knowledge of landscape construction techniques is preferred.

**Join our talented team of MNLA certified landscape professionals.**
